

Putzmeister 1409 D

 100m  250m  97m³/hr

The second largest in our static fleet, the Putzmeister 1409 is a low emission high powered pump.

With 200hp, this machine is capable of pumping 100m vertically and at least the same horizontally. This combined with its ability to meet emission limits whilst reducing fuel consumption, make this a very popular concrete pump.
