

HP Line Pump - Zeus

 32m  80m  52m³/hr

Zeus is our High Pressure Pump which comes in the form of a self-contained Line Pump.

Fitted with a Schwing 2800, this high pressure line pump is ideal for jobs requiring large volume pours with height restrictions, where a mobile pump will not be able to set up. It is also perfectly suited as for specialist projects involving high rise.

As standard Zeus comes with 40m of line (including 9m of flexi hose), a 5-4" reducer.
