

## Line Pump—Athena

 32m  80m  52m<sup>3</sup>/hr

Suitable for ground line or static line where you cannot use a boom, our Line Pumps come fully equipped with a compressor and water tank for cleaning out the pump and line.

“Athena” is a self-contained Line Pump set up with the CIFA 506 mounted on the back. Its best known for its easy placement, whether in small hidden spaces or enclosed environments, this pump allows for easy access.

As standard, Athena comes with 40m of line (including 9m of flexi hose) and a 5-4” reducer.
